SECTION 6 DEPARTMENT AND TOWNSHIP INFORMATION

The Mifflin Township Division of Fire provides fire and emergency medical services to the City of Gahanna and the unincorporated areas of Mifflin Township. With a population of over 39,000 residents, Mifflin Township includes the City of Gahanna and a 3.9-square-mile unincorporated area in northeast Franklin County. Responding to more than 12,500 calls for assistance last year with a response time of less than four minutes, the Division of Fire is one of the busiest fire departments in Franklin County.

In 2015, the American Cities of the Future report, ranked cities in North America under five categories: Economic Potential, Business Friendliness, Human Capital and Lifestyle, Cost Effectiveness and Connectivity. Gahanna ranked as the 9th best micro-city in North America for its economic potential, human capital and lifestyle. Mifflin Township is adjacent to Port Columbus International Airport and one of the largest suburbs of the City of Columbus Metropolitan region.

SECTION 7 PUBLIC RECORDS

Mifflin Township cannot guarantee the confidentiality of the results of, or information obtained through our hiring procedures. Rulings of the Ohio Supreme Court relative to the Public Records Act indicate that, with specific exceptions, records maintained by a governmental entity are a matter of public record and, should a proper request be made by a member of the public for such records, the governmental entity would be required to make such records available to that member of the public within a reasonable period of time. SECTION 9 HIRING STANDARDS

Along with the qualifications listed in the job description, applicants must meet the requirements of the Mifflin Township hiring standards. All information provided to Mifflin Township will be verified through a **DETAILED** background investigation, which may include a polygraph examination.

The purpose of the Hiring Standards is twofold: first, to give guidance to those personnel who have the responsibility of conducting background investigations, and second, to provide Screening Committee members with a set of standards designed to assist them in a reasoned and logical selection.

CRIMINAL CONDUCT

Commission of criminal acts is directly contrary to the respect for law required of a Division of Fire Employee. A list of representative criminal offenses (or any substantially equivalent municipal ordinance or law of any other state or of the United States) that is cause for disqualification is described further in this section. This list is intended to be illustrative of the types of offenses that would normally cause disqualification; it does not exclude offenses not listed. In certain cases, exceptions to the normal rule of disqualification are stated. However, that does not infer that the act described would be disregarded. In each case, even if the incident itself is not sufficient cause for disqualification, the incident may be taken into consideration, along with other discovered information regarding the applicant, in making a recommendation.

Further, it is the criminal conduct that is important; while a conviction is proof that the conduct occurred, conviction is not the only acceptable proof of criminal conduct. Information of a nature normally relied upon by reasonable persons in their daily life that a criminal act was committed by the applicant, as opposed to proof beyond a reasonable doubt, may result in a recommendation of disqualification. In this regard, the fact that an arrest occurred does not prove that criminal conduct occurred, but only that probable cause existed for that arrest. The arrest is a starting point in the investigation; ultimately, evidence and/or witness statements must be secured that demonstrate that the applicant committed criminal acts.

The following are those criminal offenses that, except as expressly noted, shall result in automatic disqualification from consideration as a Division of Fire Employee for Mifflin Township:

1. **ORC Chapter 2903** - Any offense of violence directed against a person as defined in the Ohio Revised Code Chapter 2903. This shall include all homicide, all assault, menacing, stalking, hazing, and patient abuse or neglect related offenses. However, a single incident of misdemeanor assault, menacing, or hazing will not automatically result in disqualification. Some incidents may be considered, along with other matters, in determining suitability for appointment.
2. **ORC Chapter 2905** - Any kidnapping and extortion related offenses as defined in the Ohio Revised Code Chapter 2905. However, a single incident of unlawful restraint or coercion, which occurred at least ~~to~~ (5) five years prior to investigation, will not automatically result in disqualification. Such incidents may be considered, along with other matters, in determining suitability for appointment.
3. **ORC Chapter 2907** - Any sex offense as defined in the Ohio Revised Code Chapter 2907 which occurred in the five years prior to investigation. This includes sexual assaults, prostitution, solicitation, and obscenity offenses.
4. **ORC Chapter 2909** - Any arson and related offense directed against property as defined in the Ohio Revised Code chapter 2909. This shall include desecration, disruption, vandalism, criminal damaging, and endangering related offenses. However, a single incident of criminal damaging or criminal mischief that occurred at least two (2) years prior to investigation will not automatically result in disqualification. Such incidents may be considered, along with other matters, in determining suitability for appointment.

However, a single incident of criminal trespass or tampering with coin machines which occurred at least two (2) years prior to investigation will not automatically result in disqualification. Such incidents may be considered, along with other matters, in determining suitability for appointment.
6. **ORC Chapter 2913** - Any theft or fraud offense as defined in the Ohio Revised Code Chapter 2913. This shall include passing bad checks, misuse of credit cards, forgery, and receiving stolen property related offenses. However, a single incident of a petty theft offense or conspiracy or solicitation to commit such an act, which occurred at least five (5) years prior to investigation, will not automatically result in disqualification. Such incidents may be considered, along with other matters, in determining suitability for appointment.
7. **ORC Chapter 2915** - Any offense involving the applicant's participation in gambling as defined in the Ohio Revised Code Chapter 2915. However, a single incident of misdemeanor gambling or public gaming which occurred at least two (2) years prior to investigation will not automatically result in disqualification. Such incidents may be considered, along with other matters, in determining suitability for appointment.
8. **ORC Chapter 2917** - Any serious offense directed against the public peace as defined in the Ohio Revised Code Chapter 2917. This shall include inciting riot, disorderly conduct, harassment, false alarms, and misconduct involving a public transportation system. However, a single incident of disorderly conduct, harassment, misconduct at an emergency, or misconduct involving a public transportation system that was committed at least two (2) years prior to investigation will not automatically disqualify the applicant. Such incidents may be considered along with other matters, in determining suitability for appointment.
9. **ORC Chapter 2919** - Any offense against the family as defined in Ohio revised Code Chapter 2919. This shall include bigamy, partial birth feticide or other prohibited abortion actions

involving viable fetuses, nonsupport, child endangering, and domestic violence related offenses. Similarly, any single incident of failure to report to law enforcement authorities the loss or theft of any firearm or dangerous ordnance, section 2923.20(A)(5), which occurred two (2) years before investigation, will not automatically disqualify the applicant. Such incidents may be considered, along with other matters, in determining suitability for appointment.
12. **ORC Chapter 2925** - Controlled Substance Abuse. An applicant shall not be automatically disqualified for the possession and/or personal use of controlled substances as defined in Section 2925 provided that such possession and/or personal use occurred more than five (5) years prior to the initial application with Mifflin Township. However, personal use of Marijuana within (3) years of initial application with Mifflin Township will automatically disqualify the applicant. Personal use shall be defined as, "Use considered by a person of normal sensibilities to satisfy one's curiosity or an experimental urge." The investigator shall consider the pattern of usage and the substance used, along with the applicant's overall background and character in determining suitability for employment. A violation of this section as determined by the background investigator shall be grounds for automatic disqualification.
13. Any illegal sales of drugs of abuse, marijuana or prescription drugs after the applicant turned 18 years of age shall be grounds for removal.
14. **ORC Chapter 2927** - Any serious violation of a miscellaneous offense as defined in the Ohio Revised Code Chapter 2927. This shall include offenses against a human corpse, interfering with housing, desecration, and ethnic intimidation.

APPENDIX A: PHYSICAL FITNESS TEST 1

Physical fitness is critical to satisfactory job performance as a Firefighter. Test 1 measures an applicant's overall cardio-pulmonary endurance and strength against their body weight and condition. The following provides information on the rationale, purpose, testing and procedures, standards of performance and fitness activities to prepare for the Physical Fitness Examination. It is intended to answer the basic questions pertaining to all aspects of the fitness testing process.

What is Physical Fitness?

Physical fitness is a health status pertaining to the individual officer having the physiological readiness to perform maximum physical effort when required.

Physical fitness consists of three areas:

- Aerobic capacity or cardiovascular endurance pertaining to the heart and vascular system's capacity to transport oxygen. It is also a key area for heart disease in that low aerobic capacity is a risk factor.
- Strength pertains to the ability of muscles to generate force. Upper body strength and abdominal strength are important. Areas in the low strength levels have a bearing on upper torso and lower back disorders.
- Flexibility pertains to the range of motion of the joints and muscles. Lack of lower back flexibility is a major risk area for lower back disorders.

Why is Fitness important as a job-related function?

It has been well documented that firefighting personnel (as an occupational class) have serious health risk problems in terms of cardiovascular disease, lower back disorders and obesity. Firefighters have the responsibility of minimizing known risk. Physical fitness is a health domain, which can minimize the known health risks for firefighters.

Physical fitness has been demonstrated to be a bona fide occupational qualification. Job analyses that account for physical fitness have demonstrated that fitness areas are underlying factors determining the physiological readiness to perform a variety of critical physical tasks. These four fitness areas have also been shown to be predictive of job performance and absences for firefighters. Data also shows that fitness level is predictive of trainability and job performance.

Physical fitness can be an important area for minimizing liability. The unfit firefighter is less able to respond fully to strenuous physical activity. Consequently, the risk of not performing physical duties is increased.

How will physical fitness be measured?

The Physical Fitness Examination consists of 4 basic tests. Each test is a scientifically valid test. The tests will be given in the following sequence with a rest period between each test.

1. 1-PULL-UP IN 1-MINUTE TEST

This is a measure of the fitness (strength and endurance) level of the muscle groups involved in the chest, upper arms and shoulder girdle. It is an important area for performing firefighting tasks requiring upper body strength; such as the necessity for a firefighter to pull their body weight, and equipment out of a hole. The applicant must grab the bar with their hands, palms

facing away from the body (the back of the hands facing the candidate), arms fully extended in a “dead hang.” The Applicant is not permitted to swing, kick, or bicycle legs during the upward movement. The Applicant is to raise their body until the jaw line is parallel to the ground and above the horizontal bar. Returning to a “dead hang” position completes the repetition. The score is in the successful proper completion of one (1) pull-up within 1 minute.

2. 1-MINUTE PUSH-UP TEST

This is a measure of the fitness (strength and endurance) level of the muscle groups involved in the chest, upper arms and shoulder girdle. It is an important area for performing firefighting tasks requiring upper body strength. Starting from the up position, the Applicant must keep elbows extended, hands placed slightly wider than shoulder width apart and flat on the ground; fingers pointing forward. The applicant must keep the back straight at all times and lower the body to the floor until the chest breaks the horizontal plane with the body parallel to the floor (approximately four inches from floor), elbows at a ninety-degree bend and then returns to the up position, elbows extended, to be scored as a completed push-up. Resting should be done only in the up position. Both hands must remain in contact with the floor at all times. There will be no sway backs or arched backs during the test. At any point during testing, should an Applicant rest on their knees, the count will stop and the test will end. The total number of correct push-ups in 1 minute is recorded and scored.

3. 1-MINUTE SIT UP TEST

This is a measure of the muscular endurance of the abdominal muscles. It is an important area for performing firefighting tasks that may involve the use of force and is an important area for maintaining good posture and minimizing lower back problems. The Tester will hold the Applicant's feet firmly. The Applicant will start by lying on their back, knees bent, heels flat on the floor, with the fingers laced and held behind the head. The Applicant is to avoid pulling on the head with the hands. The buttocks must remain on the floor with no thrusting of the hips. In the up position, the Applicant should touch elbows to knees and then return until the shoulder blades touch the floor. The Applicant will then perform as many correct sit-ups as possible in one minute. Any resting will be done in the up position. At any point during testing, if the Applicant should rest in the down position or hands come off their head, they will be disqualified. Breathing should be as normal as possible and the applicant should not hold their breath. The score is in the number of correct bent leg sit-ups performed in 1 minute.

4. 1.5 MILE RUN

This is a timed run to measure the heart and vascular system capability to transport oxygen. It is an important area for performing firefighting tasks involving stamina and endurance and to minimize the risk of cardiovascular problems. The score is in minutes and seconds. You are required to run, walk or jog one and a half miles within the allotted time limit.

What are the Standards?

- The actual performance requirement for each test is based upon norms for a national population sample.
- The applicant must pass every test during a single session.
- The required performance to pass each test is based upon gender and age bracket by decade. While the absolute performance is different for the categories, the relative level of effort is identical for each age and gender group. All applicants are required to meet the same percentile rank in terms of their respective age/gender group. The performance

requirement is that level of physical performance that is approximately 30th percentile for each age and sex group.
